### Topics Discussed:

We discussed about the code implementation of the software: what we had done and what difficulties we had faced. We tried to give solutions to those problems. We also discussed about the further implementation of the software.

### Decisions Made:

1. We should finish code implementation until Sunday 05, 2018.
2. We should finish "Requirements Specification" of the project until Sunday 05, 2018.
3. We should test the Web Application.
4. We should publish our Web Application online.

### Tasks Assigned:

1. Ariola will continue coding the receptionist's view and revise diagrams.
2. Ilvana will continue coding the doctor's view.
3. Kejda will continue working on front-end design.
4. Sara will continue working on collaboration diagrams, component diagram and deployment diagram. She will make the necessary changes in the "Requirements specification" document and finish that. She will also continue coding and help the other members of the group with the problems they have with their codes.
5. At the end, each member of the group will test the Web Application, if it works correctly and according to the requirements specifications.
